ABOUT ME

Dynamic and detail-oriented software developer with a strong focus on front-end development. Enthusiastic about learning and implementing the latest technologies to enhance skill sets constantly. Experienced in delivering high-quality work under tight deadlines, while maintaining attention to detail and organization. Team player, with a desire to work in a growth environment.

EDUCATION

BACHELOR'S: BUSINESS INFORMATION SYSTEMS

Faculty of Economics And Business Administration - Cluj-Napoca

2018-2021

WORK EXPERIENCE

FRONT END DEVELOPER

Betfair Romania Development | **October 2022 - Present**

- Working in Agile Scrum teams (using JIRA)
- Implementing new features for our web components(React.js, Redux, Node.js), maintaining existing codebases, integrating new games providers for our customers
- Working closely with our product owners & online entertainment games providers

FRONT END DEVELOPER

Lola Tech, Cluj Napoca | **June 2021 - October 2022**

- Working in an Agile Scrum team using the latest front-end and back-end technologies(React, React Native, Next.js, Apollo Server/Client, Strapi CMS).
- Working closely with our clients to make sure we deliver the products according to their expectations.

FULL STACK DEVELOPER INTERN

Tapptitude, Cluj-Napoca | **March 2021 - May 2021**

- During this 2.5-month internship, I was responsible for building the REST API(Node.js + Express.js, MongoDB, Typescript) and the Admin web page (Angular) for a e-scooter renting mobile application.
